Finished - submit entries

Before submitting this entry please print a copy in landscape mode for your records.

Check and the click on Finished-submit entries

You should then get to the payment page where you need to enter more details about the swimmer rather than the person paying. You will need the swimmers WASA number from before.

You should now have entered the champs and receive an email. You can go back in at anytime and add more events so in the example above I had already entered Hannah in 6 events and those showing above are additional ones she can enter. This is important for those entering the sub regionals this weekend as if the swimmer gets a pb and within the qualifying time the system will update and additional event will be ticked. It is hoped that any pbs obtained from this weekend will be on rankings Monday evening.

Any issues let me know.

Gareth
